### [AB 2518](#) ([Wood D](#)) **Voluntary stream restoration landowner liability.**

**Current Text:** Introduced: 2/19/2020 [html](#) [pdf](#)

**Introduced:** 2/19/2020

**Status:** 4/6/2020-In committee: Hearing postponed by committee.

**Is Urgency:** N

**Is Fiscal:** N

**Location:** 2/27/2020-A. W.,P. & W.

**Summary:** Would exempt a landowner who voluntarily allows land to be used for such a project to restore fish and wildlife habitat from civil liability for property damage or personal injury resulting from the project if the project is funded, at least in part, by a state or federal agency that promotes or encourages riparian habitat restoration, unless the property damage or personal injury is caused by willful, intentional, or reckless conduct of the landowner or by a design, construction, operation, or maintenance activity performed by the landowner.

### [AB 2536](#) ([Obernolte R](#)) **California Environmental Quality Act.**

**Current Text:** Introduced: 2/19/2020 [html](#) [pdf](#)

**Introduced:** 2/19/2020

**Status:** 2/20/2020-From printer. May be heard in committee March 21.

**Is Urgency:** N

**Is Fiscal:** N

**Location:** 2/19/2020-A. PRINT

**Summary:** The California Environmental Quality Act requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. The act requires all public agencies to adopt by ordinance, resolution, rule, or regulation specified objectives, criteria, and procedures for the evaluation of projects and the preparation of environmental impact reports and negative declarations, as specified. This bill would make nonsubstantive changes to those provisions.

**Summary:** Currentlaw requires the Public Utilities Commission, in consultation with the State Air Resources Board, to consider adopting specific biomethane procurement targets or goals for each gas corporation so that each gas corporation procures a proportionate share, as determined by the commission, of biomethane annually, as specified. Current law defines "biomethane" for that purpose as biogas that meets specified standards adopted by the commission for injection into a common carrier pipeline. This bill would instead define "biomethane" for that purpose as methane produced from an organic waste feedstock, rather than biogas, that meets those specified standards and is either produced from the anaerobic decomposition of organic material or produced from the noncombustion thermal conversion of specified materials.

**Summary:** The California Integrated Waste Management Act of 1989, defines "biomass conversion" to mean the production of heat, fuels, or electricity by the controlled combustion of, or the use of other noncombustion thermal conversion technologies on, specified materials when separated from other solid waste. This bill would revise that definition of "biomass conversion" and would define "biomass" for purposes of the act. The bill would also update cross references to those definitions.

**Summary:** Current law requires a state agency proposing to adopt, amend, or repeal a major regulation, on or after November 1, 2013, to prepare a standardized regulatory impact analysis in the manner prescribed by the Department of Finance that addresses, among other things, the creation or elimination of jobs within the state. This bill, among other things, would delete the requirement that a state agency prepare an economic impact assessment for proposed changes to a major regulation proposed prior to November 1, 2013, and would instead require a state agency to prepare a standardized regulatory impact analysis for proposed changes to all major regulations. The bill would require that the economic impact assessment and the standardized regulatory impact analysis also include identification of each regulation adopted within 10 years prior to the date of the proposed regulations when the prior adopted regulations are located in the same title or division as the proposed regulations and include a brief summary of any economic impact analysis previously performed with regard to those regulations.

**Calendar:** 6/11/2020 #236 ASSEMBLY THIRD READING FILE - ASSEMBLY BILLS

**Summary:** Current law, upon a declaration of a shelter crisis by specified local jurisdictions, specifies additional provisions applicable to a shelter crisis declared by one of those jurisdictions. Current law exempts from the California Environmental Quality Act specified actions by a state agency or a city, county, or city and county relating to land owned by a local government to be used for, or to provide financial assistance to, a homeless shelter constructed pursuant to these provisions, and provides that homeless shelters constructed or allowed pursuant to these shelter crisis declarations are not subject to specified laws, including the Special Occupancy Parks Act. Current law also defines a "homeless shelter" as a facility with overnight sleeping accommodations, the primary purpose of which is to provide temporary shelter for the homeless that is not in existence after the declared shelter crisis. Current law requires a city, county, or city and county that declares a shelter crisis pursuant to these provisions to develop a plan to address the shelter crisis on or before July 1, 2019, or July 1, 2020, as applicable, and to annually report to specified committees of the Legislature on or before January 1, 2019, or on or before January 1 of the year following the declaration of the shelter crisis, as applicable, and annually thereafter until January 1, 2023. Current law repeals these additional provisions as of January 1, 2023. This bill would instead apply those additional provisions to a shelter crisis declared by any county or city.

**Summary:** The California FAIR Plan Association is a joint reinsurance association formed by state insurers licensed to write and engaged in writing basic property insurance within this state to assist persons in securing basic property insurance and to formulate and administer a program and FAIR Plan for the equitable apportionment among insurers of basic property insurance. Existing law requires each insurer to participate in the writings, expenses, and profits and losses of the association in the proportion that its premiums written bear to the aggregate premiums written by all insurers in the program, as specified, but requires the plan to provide for a method for insurers who voluntarily write basic property insurance on risks located in areas designated as brush hazard areas to be proportionately relieved of the liability to participate in the plan. This bill would add to the insurers that are proportionately relieved of the liability to participate in the FAIR Plan those voluntarily writing basic property insurance on risks in high or very high fire hazard severity zones, as determined and mapped by the Department of Forestry and Fire Protection.

RLS.**Summary:** Current law requires the Director of Forestry and Fire Protection to identify areas in the state as very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. Current law provides that the purpose of this law relating to the classification of lands is so that public officials are able to identify measures that will delay the rate of spread, and reduce the potential intensity, of uncontrolled fires that threaten to destroy resources, life, or property, and to require that those measures be taken. This bill would make a nonsubstantive change to this latter provision relating to the purpose of the law.**Text History:**

**Summary:** Current law requires the Director of Forestry and Fire Protection to identify areas of the state as very high fire hazard severity zones based on specified criteria. Current law requires a local agency, within 30 days after receiving a transmittal from the director that identifies very high fire hazard severity zones, to make the information available for public review, as provided. This bill would also require the director to identify areas of the state as moderate and high fire hazard severity zones and would require a local agency to make this information available for public review, as provided. By expanding the responsibility of a local agency, the bill would impose a state-mandated local program.

**Summary:** Current law requires the planning agency to review and, if necessary, revise the safety element upon each revision of the housing element or local hazard mitigation plan, but not less than once every 8 years to identify new information relating to flood and fire hazards and climate adaptation and resiliency strategies applicable to the city or county that was not available during the previous revision of the safety element. Current law requires that the Office of Planning and Research, among other things, coordinate with appropriate entities, including state, regional, or local agencies, to establish a clearinghouse for climate adaptation information for use by state, regional, and local entities, as provided. This bill would require the safety element, upon the next revision of the housing element or the hazard mitigation plan, on or after January 1, 2020, whichever occurs first, to be reviewed and updated as necessary to include a comprehensive retrofit strategy to reduce the risk of property loss and damage during wildfires, as specified, and would require the planning agency to submit the adopted strategy to the Office of Planning and Research for inclusion into the above-described clearinghouse.

**Summary:** Current law makes a person found to have violated specified provisions of law generally

protecting fish and wildlife, water, or other natural resources in connection with the production or cultivation of a controlled substance liable for a civil penalty in addition to any penalties imposed by any other law. Current law authorizes the imposition of larger fines on a person who violates one of these provisions on specified types of public or private land or while the person was trespassing on public or private land than on a person who violates one of these provisions on land that the person owns, leases, or otherwise uses or occupies with the consent of the landowner. Current law authorizes these civil penalties to be imposed or collected by a court or imposed administratively by the Department of Fish and Wildlife. This bill would instead make these provisions applicable to activities conducted in connection with the production or cultivation of cannabis, cannabis products, or industrial hemp.
